Dal 1911 Olivari realizza maniglie in Italia,
all'interno dei propri stabilimenti,
dove si svolge l'intero ciclo produttivo.
Partendo da barre in ottone, le maniglie vengono
stampate, lavorate, smerigliate, lucidate,
cromate e marchiate al laser.
Olivari ha ottenuto le certificazioni
ISO 9001 e ISO 14001
e si avvale delle tecnologie più evolute,
ma ha mantenuto tutta la sapienza artigianale
accumulata in cento anni di storia.

Since 1911 Olivari has been manufacturing handles
at its own factories in Italy
where the entire production process takes place.
Starting with brass billets, the handles are forged, milled,
polished, buffed, chrome-plated and hallmarked with a laser.
Olivari has attained ISO 9001
and ISO 14001 certifications.
Though it uses the most advanced technology,
Olivari preserves all the artisanal wisdom
it has accumulated in 100 years of history.

Nero opaco profondo

Deep mat black

NP Nero opaco / Mat black

Abbiamo ampliato la gamma della finitura nero opaco

Verniciatura

La verniciatura, effettuata con polvere epossidica, ha uno spessore di circa 80 micron e conferisce al prodotto una finitura molto accattivante. Se usata secondo le istruzioni d'uso e manutenzione, la finitura verniciata ha una vita lunga.

L'elevata frequenza di utilizzo e l'eventuale esposizione agli agenti atmosferici possono ridurre la vita utile del prodotto.

We have expanded the range of the mat black finish

Coating

Epoxy-based powder coating, about 80 microns thick, offers a very attractive finish with great longevity, provided the product is used in accordance with the instructions and maintenance guidelines. High-intensity use and exposure to the elements can limit the product's lifespan.
